DETAILED ACTION

1. This is in response to Applicant's election of 11/26/04. Claims 1-31 were elected and claims 32-34 are withdrawn from further consideration. Additional election of species is required within claims 1-31 and detailed below.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I) Either the panels have a point of permanent attachment (claim 13) or the panels can be detached (claim 14).

Species II) Either the garment covers part of the arm (claim 17) or no part of the arm (claim 21).

Species III) Either the garment covers part of the leg (claim 18) or no part of the leg (claim 22).

Species IV) Either the garment covers part of the neck (claim 19) or no part of the neck (claim 23).

Species V) Either the compartment is located anteriorly with respect to the wearer (claim 25) or posteriorly with respect to the wearer (claim 27).

Species VI) Either the garment is adapted to fit a mammal (claim 29) or is adapted to fit a non-human animal (claim 30).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 2 and 31 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alissa L. Hoey whose telephone number is (571) 272-4985. The examiner can normally be reached on M-F (8:00-5:30) Second Friday Off.

Art Unit: 3765

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Calvert can be reached on (571) 272-4983. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
